# **1** Preface

# **1.1 Purpose**

The purpose of this document is to provide a set of comprehensive information for web developers to download and customise the web templates with accessibility features provided by the Government for free use. Web developers and designers can take full advantage of the features provided in the web templates for making their own accessible webpages.

The accessible web templates are developed with an aim at providing –

- Free templates with basic web accessible features for adoption by non-government organisations (NGOs) or web developers/designers;
- Sample codes for web developers/designers to tailor-make their website easily; and
- A reference for web developers/designers for developing barrier-free websites.

# **2** Introduction to the Web Templates

The web templates provide three layers, including -

- Home page
- Second layer with text-based content
- Second layer with table presentation

15 web accessibility features are incorporated in the templates for the website development, including –

- Provision of meaningful text alternatives for images;
- Text resize function;
- "Skip to Content" shortcut;
- Three level menu with keyboard accessible;
- User-initiated background sound;
- Pop up window with "Close" link;
- Provision of an accessibility statement;
- Accessible animated content;
- Sufficient colour contrast;
- User-initiated content updating;
- Provision of input assistance for online form;
- Provision of descriptive information for links;
- Provision of accurate and appropriate headings for contents;
- Provision of meaningful titles and descriptions for table headers; and
- Correct syntax of webpages which are compatible with assistive technologies.

The following sections detail the design and how to code the webpages. You may modify the HTML codes as needed and replace those "underlined codes" with your required information or other files which are suitable for your website.

# 3 Home Page

The home page of the accessible web templates includes a header, content body and footer.

#### 4.1 Home Page – Header

The header of the home page consists of the following items -

- Organisation's logo;
- Background sound settings;
- Colour settings;
- Sitemap link;
- Text resize links; and
- Navigation menu.

# 4.1.1 Header Section with Source Code

(1) Provide an organisation's logo and the settings in the HTML markup.

```
<div id="skip-wrap">
   <a id="skip" href="#web-access" tabindex=1>跳到主要内容</a>
</div>
<div id="header">
   <a href="#" tabindex=2><img src="images/logo.gif" alt="機構名稱
"/></a>
<div id="menu-wrap">
    <a class="small" id="fs_0" onclick="changeFontSize(0);"
href="#" title="預設字體" tabindex=8>A</a>
    <a class="med" id="fs 1" onclick="changeFontSize(1);"
href="#" title="較大字體" tabindex=9>A</a>
     <a class="large" id="fs 2" onclick="changeFontSize(2);"
href="#" title="最大字體" tabindex=10>A</a>
```

```
<a class="stopped" id="music" href="#" tabindex=3>開啟背
<u>景音樂</u></a>
      <a id="colour-link" href="#" tabindex=4>我的自訂色彩
</a>
      <a id="sitemap" href="sitemap.htm" tabindex=7>網頁指南
</a>
      <div id="colour-wrap" style="display: none;">
      < u | >
       <a title="藍色" id="blue" href="#" tabindex=5>藍色
</a>
      <a title="黑色" id="black" href="#" tabindex=6>黑色
</a>
      </div>
</div>
</div>
```

(2) Provide a three level menu in the HTML markup.

```
<a class="active" href="index.htm">主頁</a>
    <a href="#">關於我們</a>
    <a href="#">簡介</a>
     < u | >
       <a href="#">項目一</a>
       <a href="#">項目二</a>
       <a href="#">項目三</a>
      <a href="#">使命及宗旨</a>
      <a href="#">項目一</a>
       <a href="#">項目二</a>
       <a href="#">項目三</a>
```

```
<a href="#">組織架構</a>
      <a href="#">項目一</a>
        <a href="#">項目二</a>
        <a href="#">項目三</a>
       <a href="#">本會服務</a>
       <a href="#">復康服務</a>
        <a href="#">服務中心</a>
       <a href="#">本會活動</a>
       <a href="#">活動預告</a>
        <a href="#">活動花絮</a>
       <a href="#">加入我們</a>
       < u | >
         <a href="#">申請成為會員</a>
         <a href="#">職位空缺</a>
       class="last"><a href="contact.htm">聯絡我們</a>
       <div style="clear: both;"></div>
```

# 4.2 Home Page – Content Body

The content body of the home page consists of the following sections –

- Banner section;
- Related websites and activities section;
- What's news section;
- Video embedded section;
- Pop up windows section; and
- Hot keyword section.

# 4.2.1 Banner Section with Source Code

(1) Provide banners and descriptions in the HTML markup.

# 4.2.2 Related Websites and Activities Section with Source Code

(1) Provide related websites and activities in HTML markup.

```
<div class="col left">
<h1 class="col-head colour-3"><a id="web-access"
```

# 4.2.3 What's News Section with Source Code

(1) Provide latest news information in HTML markup.

```
<div id="content" class="col right">
    <h1 class="col-head colour-3">最新消息</h1>

    <a id="scroll-controls" class="controls">
    <a id="play_scrollercontrol" href="#" class="play
replace">Play</a>
    <a id="stop_scrollercontrol" href="#" class="stop
replace">Stop</a>
    <a id="stop_scrollercontrol" href="#" class="stop
replace">Stop</a>

    <</li>
    <
```

會)今日開展「無障礙網頁嘉許計劃」,以表揚企業和機構在其網站採用無障礙網頁設
<u>計。</u>
<li></li>
<div class="left"> <a href="&lt;u&gt;#&lt;/u&gt;"><img <="" src="&lt;u&gt;images/img-2.jpg&lt;/u&gt;" td=""/></a></div>
alt="展覽會展示無障礙輔助科技產品" title="展覽會展示無障礙輔助科技產品

<div class="text">政府資訊科技總監辦公室今日開展「無障礙網頁</div>
運動」,透過宣傳和提供相關知識及技術資源,推動公私營機構的網頁採用無障礙設
<u> 許。</u>

# **4.2.4 Video Embedded Section with Source Code**

(1) Provide Video video in a new pop-up window and text transcript in HTML markup.

```
<a id="video_popup" style="margin-top: 30px; display: block;" href="#"
onclick="return popWin('video.htm');">
<img src="images/Video.jpg" alt="視像連結" title="視像連結"></a>
<a href="./doc/1823Script_chi.doc?colour=blue&amp;font_size=0"
title="下載視像的文字稿" id="download">下載視像的文字稿<img
src="images/download.jpg" alt="視像的文字稿下載"></a>
```

# 4.2.5 Hot Keyword Section with Source Code

(1) Provide hot keywords in HTML markup.

```
<h1 class="col-head colour-3">熱門關鍵詞</h1>
<a href="<u>#</u>" style="text-decoration: none;"> <u>無障礙網頁運動</u>
</a>
<a href="<u>#</u>" style="text-decoration: none;"><u>無障礙網頁嘉許計劃</u>
```

</a>
<a href="#" style="text-decoration: none;">網頁製作</a>
<a href="#" style="text-decoration: none;">無障礙網頁國際標準
</a>
<a href="#" style="text-decoration: none;">殘疾歧視條例
</a>
</a>
</u>

# 4.3 Home page – Footer

2013© 重要告示 | 無障礙網頁提示 | 修訂日期: 2013年1月9日

#### Implementation

(1) Provide footer in HTML markup.

```
<div id="footer">
2013© <a href="notice.htm">重要告示</a>
<a href="accessibility.htm">無障礙網頁提示</a>
<b style="text-align: center;">(a>
```

Please refer to the Home page – Footer section.

# 6 Highlights of Web Accessibility Features

Seven web accessibility features are highlighted as follows.

# 7.1 Provide Meaningful Text Alternatives for Images

The accessible web templates provide examples to show meaningful text alternatives for images. A text description that can be read by the screen reader should be included.

#### Implementation

(1) Make sure that the alternative text conveys all of the important information relevant to its purpose, but don't burden users with excessively long alt text in HTML markup.

```
<img alt="<u>無障礙網頁運動</u>" src="<u>./images/gold.jpg</u>">
```

- (2) Null alt text should apply on:
  - Decorative images
  - Transparent and spacer images
  - Redundant images

<img alt="" src="./images/decorative.jpg">

#### 7.2 Allow Text Resize

The accessible web templates provide a function that allows users to resize text up to 200% without loss of content.

歡迎瀏覽 機構名稱			<u>볢돰쾁</u> 5	<u>書業 我的自言</u>	<u>1色彩</u> 調査指南	а а А

			展覽會展示無障礙	種動科技產	下載視像的文字	高 🥃

#### Implementation

(1) Add 3 links for users to resize the text in HTML markup

```
    <ulid="size">
        <a class="small" id="fs_0" onclick="changeFontSize(0);"
        href="#" title="預設字體" tabindex=9>A</a>
        <a class="med" id="fs_1" onclick="changeFontSize(1);"
        href="#" title="較大字體" tabindex=10>A</a>
        <a class="large" id="fs_2" onclick="changeFontSize(2);"
        href="#" title="最大字體" tabindex=11>A</a>
```

(2) Change the size of text by using Javascript

```
function changeFontSize(fs) {
    set_cookie(COOKIE_FONT_NAME,fs,COOKIE_FONT_EXPIRES);
```

```
var s = document.getElementsByTagName("body");
for( i = 0 ; s.length ; i++ ) {
    if(s[i] == undefined)
         return;
    if(s[i].id == 'body_resize')
         if(fs=="0") {
             fs="<u>40%</u>";
         }
         if(fs=="1") {
             fs="<u>55%</u>";
         }
         if(fs=="2") {
             fs="<u>83%</u>";
         }
         s[i].style.fontSize = fs;
}
```

# 7.3 Provide "Skip to Content" Shortcut

The accessible web templates provide a function that allows users to skip to content section.

#### Implementation

(1) Provide a link for Skip to Content in HTML markup

<a id="skip" href="#web-access" tabindex=1><u>跳到主要內容</u></a>

(2) Specify the content location in HTML markup

<h1><a id="web-access" href="#"><u>相關網站和活動</u></a></h1>

(3) Handle the focus in JavaScript

```
$('#skip').click(function(){
    $('#web-access').focus();
}
```

# 7.4 Provide Three Level Menu with Keyboard Accessible

The accessible web templates provide a function that allows users to access all menu items by a keyboard interface.

#### Implementation

```
(1) Provide the menu description and links in HTML markup
<a class="active" href="index.htm">主頁</a>
    <a href="#">關於我們</a>
    <a href="#">簡介</a>
      <u|>
         <a href="#">項目一</a>
        <a href="#">項目二</a>
        <a href="#">項目三</a>
       <a href="#">使命及宗旨</a>
       <a href="#">項目一</a>
        <a href="#">項目二</a>
```

```
<a href="#">項目三</a>
      <a href="<u>#</u>">組織架構</a>
      <a href="#">項目一</a>
         <a href="#">項目二</a>
         <a href="#">項目三</a>
       <a href="<u>#</u>">本會服務</a>
       < u | >
         <a href="#">復康服務</a>
         <a href="#">服務中心</a>
       <a href="#">本會活動</a>
       <u>
        <a href="#">活動預告</a>
        <a href="#">活動花絮</a>
       <a href="#">加入我們</a>
        <u>
         <a href="#">申請成為會員</a>
         <a href="#">職位空缺</a>
       class="last"><a href="contact.htm">聯絡我們</a>
       <div style="clear: both;"></div>
```

# 7.5 Provide User-initiated Background Sound

The accessible web templates provide a function that allows users to initiate the background sound.

歡迎瀏覽 機構名稱			間層書	<u>最音樂</u> 我的自訂色彩	<sub>網頁指南 A</sub> A A
主頁	關於我們	本會服務	本會活動	加入我們	聯絡我們

#### Implementation

(1) Add a link to play and stop the background sound in HTML markup
 <div id="player-wrap"></div>
 <a class="stopped" id="music" href="#">開啟背景音樂</a>

(2) Handle the function by JavaScript

```
$('#music').click(function(){

if($(this).hasClass('stopped')){

    $(this).removeClass('stopped').addClass('started').html('<u>關閉音</u>

<u>景音樂</u>');

    $('#player-wrap').html('<embed id="player"

src="<u>music demo.MP3</u>" autostart="true" loop="true"width="2"

height="0"></embed>');

    }else{

    $('#player-wrap').html('');

    $(this).removeClass('started').addClass('stopped').html('<u>開啟音</u>

<u>景音樂</u>');

    }

    return false;

})
```

# 7.6 Provide Input Assistance

The accessible web templates provide an example in Contact Us page to show the input assistance for input forms.

\* Please note that the images and the implementation approach of CAPTCHA (驗證碼) should be updated by yourself.

# 7.7 **Provide "Close" link in Pop Up Windows**

The accessible web templates provide an example to show how to provide a "Close" link in a pop up window.

# Implementation

(1) Provide "Close" link in HTML markup.

<a href="#" onclick="return closeWin()">關閉彈出視窗</a>

(2) Provide a close function in JavaScript.

```
function closeWin(){
    window.close();
}
```

#### }

#### 7.8 **Provide an Accessibility Statement**

The accessible web templates provide an example to show the accessibility statement with contact points for users when they encounter difficulties in accessing the content.

歡迎瀏覽 <b>機構名稱</b>					關啟背景音樂	我的自訂色彩	網頁指南	A <b>A A</b>
主頁	關於我們	本會服務	本會活動	加入我們	聯絡我們			
無障礙網頁	「提示							

#### Implementation

(1) Add an accessibility statement in HTML markup <h1><a id="web-access" href="#">無障礙網頁提示</a></h1> <div class="main\_content"> 本網站已採納無障礙網頁設計。如對本網站在使用上有任何查詢或意見,請 致電或發送電郵與我們聯絡 電話號碼: <u>xxxx xxxx[請提供電話號碼]</u> 電郵地址: <u>xxx@xxx.xxx[請提供電郵地址]</u> </div>

# 7 Frequently Asked Questions (FAQ)

# 8.1 Settings

(1) What are the system requirements on the web templates?

The system requirements are as follows -

- i. Recommended screen resolution The best resolution is 1024\*768.
- Recommended browsers
   Internet Explorer 8.0, 9.0;
   Google Chrome 23;
   Firefox 17; and
   Safari 5.1
- (2) How to avoid layout problems when using Internet Explorer?

In Internet Explorer 8.0 and 9.0, please make sure the compatibility mode is turned off. Please refer the steps for the settings –

Step 1: Open Internet Explorer.

Step 2: Select Tools > Compatibility mode setting.

Step 3: Uncheck the checkboxes as below.

相容性檢視設定	×
您可以新增和移除 [相容性檢視] 下顯示的第	陇Ⅰ∘
新增此網站①):	
	新增(A)
□ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □	
	移除( <u>R</u> )
<ul> <li>包含來自 Microsoft 的更新網站清單(U)</li> <li> <u>             在相容性檢視下顯示內部網路網站(I)</u> </li> <li>             在相容性檢視下顯示所有網站(E)         </li> </ul>	
	關閉(C)

Step 4: Click Close button.

Step 5: Close Internet Explorer and re-open it. The setting is done.

#### 8.2 Use of Templates

(1) Is the use of templates free for charge?

Yes.

(2) When using the templates to build/ revamp our website, is it guaranteed that the website is conformed to WC3 WCAG 2.0 AA standard?

The templates originally are conformed to WC3 WCAG 2.0 AA standard. However, after building/ revamping your website by using the templates, it is not guaranteed to conform to the standard.

# **8.3 Colour Contrast**

(1) Can you state a few examples of combinations that fulfill the colour contrast requirement of 4.5:1?

Foreground Colour	Background Colour	Colour Contrast Ratio	Example
#68186F	#FFF4A5	9.61:1	This is example text.
#0C4B6A	#E8F1F6	8.23:1	This is example text.
#A62121	#FFF4A5	6.55:1	This is example text.
#395B17	#BBFF17	6.5:1	This is example text.
#EEFF59	#7B5B17	5.69:1	This is example text.
#2A5A99	#F4E896	5.57:1	This is example text.
#26A7FF	#2101A0	5.11:1	This is example text.
#C05030	#FFFFFF	4.74:1	This is example text.
#EEFFDB	#467D22	4.73:1	This is example text.
#2169A0	#FFDAEC	4.59:1	This is example text.
#FFFFFF	#E7210C	4.54:1	This is example text.

There are some examples for reference :
