

Success Story of Project Completed for The Government

Project Owner:

Hong Kong Police College (HKPC) of the Hong Kong Police Force (HKPF)
The Government of the Hong Kong Special Administrative Region

Project Name (in English):

Web App Design Services for the Police Museum

Project Name (in Chinese):

警隊博物館應用程式設計開發服務

Project Description:

This project is to design and develop a Web App (the Web App) for mobile viewing via scanning QR codes, which will be attached at different spots inside and outside the Police Museum. The Web App aims to provide extra information or background stories with the text, preloaded audio voice-over clips and additional pictures to visitors about the featured artefacts and items of significance of the Museum.

BINGO (HK) is a leading website design company in Hong Kong. With more than ten years of experience and creative characteristics, it has successfully provided over 6,000 custom website design services for many famous NGOs and listed companies. BINGO (HK) is recommended as one of the top website design firms in the region.

In the Web App Project, BINGO(HK) also provides reliable and professional design services, including:

WCAG 2.0 Level AA

Helping persons with disabilities access online information and enhancing their user experience, embracing user equality in the design process.

Suitable Volume and Professional Voice Over Service

Professional voice artist and studio to produce the best voice over and fine tuning to the most suitable voice.

Optimizing User Experience

The Web App is compatible with all mobile and tablet in the market to ensure the

usability.

Creative and Interactive Design

Memorable design through interactive elements. The key features of a mobile web app are its user-friendly performance and smooth browsing speed. To deliver a better user experience to the visitors, the reduction of marginal error and maintenance minimization is required.

Quality Assurance Test and User Acceptance Test

BINGO (HK) specially formed a Quality Assurance (QA) Team which monitors the production of websites, from UI UX designs to website coding.

Deliver Web App project efficiently on time

Build the Web App within the time limit specified by the Hong Kong Police College.

User manual and training

Providing the user manual and training in case of any doubts regarding the usage of the mobile web app.

After the Web App is published, BINGO (HK) continues to provide stable and reliable permanent technical support and website maintenance service.

Means of Service Acquisition: Open Tender

Contractor Name: BINGO (HK)

Subcontractor Name: N/A

Project Commenced on: Nov 2021

Project Completed on: Oct 2022
